

# **IMAGES FOR YOUR BOOKS**

## **Free & Paid Including Tools**

Adding the right images to your books, (whether inside or as a cover), is incredibly important. A great image tells your visitors right away what the subject of your book is about and thereby keeps them interested.

The right images for your books are particularly important as well when it comes to promoting yourself on social media. Your image and headline will be the only things that your prospective readers have to go on when deciding whether or not to purchase a book.

In this PDF you will find some great resources where you can get your hands on free and paid images for your books and even your websites if you have any.

Before you check out the image resources make sure you understand what you can and cannot use.

## **Intellectual Property Law**

Of course, you cannot just go to Google Images and take pictures from there. If you do that you will likely be using images without permission that are copyright.

If you publish work that someone else has created, they will have the rights to request you take it down. If you don't comply, they may eventually be able to take you to court.

You can use images from the web and simply remove them if asked. But I DO NOT advise you to do that because it could put you at risk of repercussions. This is why you either need to create your own images, or you need to use images that are open for you to use.

Having said that, the good news is that in Google Images there's an 'Advanced Search' feature which lets you search for particular licenses. You'll want 'labeled for commercial reuse' and 'labeled for commercial reuse with modification'.

Note that this process isn't foolproof.

Sometimes Google will return images that actually aren't under the license you were searching for, so just be careful what you use as it is not necessarily a free image with no copyright.

Always check the terms and conditions.

\*\*\*\*\*

## General Stock Image Sites

**iStockPhoto:** This site has a large database of images. You can expect to pay a few dollars for each image. You can also get vector images here too.

**Freelimages:** This is like iStockPhoto but completely free. In most cases, you will need to credit or link to the photographer to use the image.

**Pexels:** This is one of my favorite image sites. High quality, huge collection and generally no attribution required.

**Unsplash:** Unsplash is great if you need large, high-resolution images.

**GratisPhotography.com:** A private collection that is free to use.

**Getrefe.tumblr.com:** Free photos covering a lot of subjects.

**Picjumbo:** This is one of the best quality free stock photo sites on the net. It's not as packed with images as the paid options

but you can get a good selection of high quality pictures to use.

**500px:** This is somewhat similar to [Flickr](#). It allows you to search by license which means you can find images that you're allowed to use relatively easily.

**Pixabay:** A huge collection of photos, vectors and art illustrations. Some are paid images that will redirect you to pay for the image once clicked, so make sure you double check before downloading.

**WikiMedia Commons:** Here you can look for creative commons pictures. It's a bit fiddly to use but the selection is extensive.

**OpenPhoto.net:** This is a site that lets photographers submit their own images, all of which are free to use.

**AlltheFreeStock.com:** A large directory of online stock images that are free to use for commercial use.

## Old School Images

**RetroVectors**

**VintageVectors**

**Vectorian.net**

**UsHistoryImages.Com**

**Nos.twnsnd.co**

## Mixed Image Resources

**Vector4Free**

[Vecteezy](#)

[Vexels](#)

[PixEden](#)

[123FreeVectors](#)

[Photy.org](#)

[FreePik](#)

[PublicDomainVectors.org](#)

[VectorPortal](#)

[Vector-Finder](#)

[FreeVectors.net](#)

[KeepDeisgning - Free Vectors](#)

[TextureZoom](#)

[FreeVectors.me](#)

[FudgeGraphics - Freebies](#)

[FreeVectors.org](#)

## **Icons**

[FlatIcon](#)

[WebIconSet](#)

[Antique Clipart](#)

## Memes, Infographics Other Fun Tools

[Meme Generator](#): This is a great tool for creating your own spins on popular memes.

[Visme](#): Visme is a tool for building infographics, slideshows, headers and more.

**Canva**: You have probably heard of Canva by now. It is an alternative to Visme.

**Piktochart**: This is a tool designed specifically for infographics.

**Infogram**: A cool infographics tool.

**Stencil**: A powerful tool for creating beautiful images, perfect for social media.

**Vennage**

**Easelly**

**Visually**

**Quickmeme**

**MemeBuilder**

## Image Tools

**Paint.net**: A free image and photo editing software for Windows.

**Inkscape**: A vector drawing tool similar to Adobe Illustrator. It's a great free tool if you don't have access to Illustrator.

**Gimp**: A free graphics software. An alternative to Adobe Photoshop or Paint.net.

**Krita**: A pretty cool graphics and drawing program.

**ipiccy**: Photo editor.

**SumoPaint**: A solid free tool with some cool features.

These are just a few examples of image sites and tools that I consider to be quite good. There are many others if you search Google but over the years I have found these to be adequate. Hopefully, you found a few valuable resources to add to your arsenal.

I tried to stick with the free stuff but of course the odd paid site or program is bound to pop up too. When looking for images make sure to read the rules of how you can use them because some sites quote the words “free” but end up not being free at all. So just keep your eyes peeled!
